ABSORBINE

The Horse World's Most Trusted Name[®]
MEDICATED SPRAY

FOR USE ON HORSES: Absorbine[®] Medicated Spray helps in the treatment of Rain Rot, Ringworm, Girth Itch, Summer Itch, Tail Itch, Grease Heal (Scratches) and other bacterial skin infections.

DIRECTIONS: For use on affected areas only: Apply Absorbine Medicated Spray on the specific areas affected. Do not rinse. Reapply to coat twice daily or until skin condition is controlled. For best results, apply after washing with Absorbine[®] Medicated Shampoo. Please be sure to dry affected area before treating with spray. As skin heals, spray once daily.

Discontinue use when fully healed. To speed treatment, horses with Rain Rot should be kept in dry conditions.

FOR USE ON DOGS:

Absorbine[®] Medicated Spray aids in the treatment of hot spots, dermatitis, dry, flaky skin, ringworm and other bacterial skin infections.

DIRECTIONS: For use on affected areas only: Hold spray 4-6 inches from the affected area and apply directly. Do not rinse. Reapply to coat twice daily or until skin condition is controlled. For best results, apply after washing with Absorbine[®] Medicated Shampoo. Dog's coat should be dry before treating with Absorbine[®] Medicated spray. As skin heals, spray once daily.

Active Ingredient: Chloroxylenol 0.50%

Other Ingredients: Purified Water, Polysorbate 20, Propylene Glycol, Glycerin, DMDM Hydantoin and Tea Tree Oil.
